

Florenzyme Capsules

Nutritional supplement with bacteria culture (LAB2PRO™),
Alpha-Amylase and Protease
vegan

Useful information: Florenzyme capsules are an innovative nutritional supplement that combines selected bacterial cultures with valuable digestive enzymes (alpha-amylase and protease). A special capsule technology ensures that the ingredients are protected from the acids in the stomach and reach the digestive tract in a functional way. In this way, they can contribute to a natural, desirable digestion and intestinal flora. In terms of targeted nutritional supplementation, we recommend taking one Florenzyme capsule daily over a longer period of time with or after a meal.

Ingredients: Fructooligosaccharides, Corn Starch (bulking agent), Hydroxypropylmethylcellulose, Enzyme Mixture (**Wheat Flour**, Alpha-Amylase, Sodium Chloride, Protease, Dextrin), Bacterial Cultures (Streptococcus thermophilus, Pediococcus pentosaceus, Lactobacillus plantarum), Magnesium stearate (separating agent).

	per capsule
Alpha-Amylase	103 AU*
Protease	0.25 AU*
LAB2PRO™ with	
3 bacterial strains, Colony Forming Units (CFU)	5 x 10 ⁸ CFU
Fructooligosaccharides	258 mg

*Active Unit

Reference value for daily consumption according to Regulation (EU) No. 1169/2011 not available

Recommended use: Swallow 1 capsule daily during or after a mealtime with plenty of liquid.

Store in the fridge after opening.

Nutritional supplements should not be used as a replacement for a balanced, varied diet, and do not replace a healthy lifestyle. Keep out of reach of young children. Do not exceed the recommended daily dose.

Contents 30 capsules = 16 g
