

## Collagen Vital Complex Plus

Food supplement with collagen hydrolysate (Fortigel®, Bodybalance®, Tendoforte®),  
glucosamine, chondroitin, vitamin C and minerals

**Useful information:** A healthy, vital, powerful feeling - that is what Collagen Vital Complex Plus can offer you! As a so-called structural protein, the body's own collagen, known in specialist circles as collagen, gives bones, joints, muscles and tendons support, strength and elasticity. With three different branded collagens (Fortigel®, Bodybalance®, Tendoforte®) and a combination of valuable vital substances such as vitamin C, magnesium, zinc, manganese, glucosamine and chondroitin, this unique food supplement is a real benefit for muscles, bones and joints. In particular, people of advancing age who want to remain physically and athletically active benefit from the proven effect of the ingredients, of which only a few should be mentioned here:

- Vitamin C contributes to normal collagen formation, which is important for normal bone, cartilage and blood vessel function.
- Manganese contributes to maintaining good bones and to connective tissue growth.
- Magnesium reduces tiredness and fatigue and supports normal muscle function.

Collagen Vital Complex Plus can be easily and conveniently taken once a day as a drinking powder.

**Ingredients:** Collagen Hydrolysate (84%), Dextrose, Trimagnesium Citrate, **Glucosamine Sulphate from Crustaceans** (3%), Chondroitin Sulphate (1%), Flavouring, Citric Acid (acidifier), Vitamin C, Zinc Citrate, Silicon Dioxide (separating agent), Manganese Sulphate.
