

Hyaluronsäure-Cream

Highly effective wrinkle reducing cream with a visible "lifting" effect.

Hyaluronic acid is a natural, bioactive moisturizer that can bind a large amount of water. This way, the skin is plumped from within, what makes it noticeably smoother, firmer and tighter. With regular use, even pronounced wrinkles are reduced and new wrinkles are prevented from developing. Shea butter, almond oil and jojoba oil provide moisturizing and soothing and smoothing benefits to the skin. The result: It makes your skin look healthier, well cared for and visibly younger.

Ingredients: Aqua, Glyceryl Stearate, Butyrospermum Parkii Butter, Decyl Oleate, Pentylene Glycol, Dicaprylyl Carbonate, Glycerin, Simmondsia Chinensis Seed Oil, Pentaerythrityl Distearate, Candelilla/Jojoba/Rice Bran Polyglyceryl-3 Esters, Prunus Amygdalus Dulcis Oil, Sucrose Stearate, Potato Starch Modified, Cetearyl Alcohol, Sodium Stearoyl Lactylate, Sodium Hyaluronate, Helianthus Annuus Seed Oil, Lecithin, Xanthan Gum, Tocopherol, Ascorbyl Palmitate, BHT, Parfum.
