

tierlieb Hemp oil

Feed for dogs and horses

Useful information:

Tierlieb Hemp Oil is particularly rich in polyunsaturated essential fatty acids (approx. 80 %), contains natural vitamin E and supplies energy. The cold-pressed oil is harvested from the rich seeds of the hemp plant (*cannabis sativa*) and is characterised by its particularly high natural omega-3 and omega-6 fat content. The omega-6 fatty acid linoleic acid supports many body functions and is not only important for growing animals.

In horses and dogs, the high-quality natural product supports a normal, healthy coat and skin metabolism as well as the general physical condition. The purely plant-based vitamin E in Tierlieb Hemp Oil possesses a high organic-availability, prevents deficiencies and contributes to the protection of the cells from oxidative stress.

- Natural and cold-pressed
- Controlled quality
- for biological feed appropriate to the species

Feed recommendation:

Add the required quantity to the daily feed:

Small dogs: 1 teaspoon (2.5 ml)

Medium-sized dogs: 2 teaspoon (5 ml)

Large dogs: 3-4 teaspoons (10 ml)

Lactating bitches receive 2-3 times the amount.

Horses (500-600 kg): 2-4 measuring cups (40-60 ml) per day.

At high performance up to 100 ml per day in small portions.

Small horses and ponies: 1-2 measuring cups (20-40 ml).

Note: Hemp Oil can contain traces of cannabinoid, which could lead to a positive doping result. Therefore, a grace period of 48 hours prior to the competition is recommended.

Oils can have a laxative effect when used excessively.

Analytical contents: Crude fat 100 %, crude fibre 0 %.

Metabolisable energy: 35.5 MJ/kg (924 kcal/100 ml).

Omega-3 fatty acids: α -linolenic acid approx. 25 %

Omega-6 fatty acids: Linolenic acid approx. 50 %.

Additional substance per kg

Vitamins: 1,800 mg natural vitamin E of plant origin.

Keep cool, dry and out of direct sunlight.
