

tierlieb

BARF Additive for dogs and cats

High-quality mineral feed supplement for self-prepared feed

Good to know:

The tierlieb BARF Additive offers you the possibility of supplementing feed rations you put together yourself with all essential vital substances. The nutrient content in raw food (BARF) can fluctuate greatly, and is not so easy to calculate. Using the tierlieb BARF Additive, you can reliably supply your well-loved pets with natural mineral substances and all vital vitamins and trace elements. This prevents a deficit in nutrients, which is mainly significant during growth and at an advanced age. In addition, brewer's yeast and Spirulina algae supply extra natural vital substances.

- In support of important metabolic functions
- Contains natural ballast and micronutrients
- Suitable for biological raw feed appropriate to the species (BARF)

Analytical contents:

Protein 11.8 %, fat content 1.5 %, inorganic substances 40.5 %, raw fibre 11.0 %, calcium 12.5 %, phosphorous 3.0 %, magnesium 1.6 %, potassium 0.6 %, sodium 1.9 %.

Metabolisable energy: 7.5 MJ/kg

Vitamins (per kg):

Vitamin A 150,000 I.U.

Vitamin D 15,200 I.U.

Vitamin E 1,500 mg

Vitamin C 1,500 mg

Calcium-D-pantothenate 830 mg

Niacinamide (vitamin B3) 800 mg

Vitamin B2 (riboflavin) 420 mg

Beta carotene 170 mg

Vitamin B6 (pyridoxine hydrochloride) 130 mg

Vitamin B1 125 mg

Folic acid 18 mg

Biotin 7.5 mg

Vitamin B12 (cyanocobalamin) 2.0 mg.

Composition: 49 % mineral substances (dicalcium phosphate, calcium carbonate, calcium citrate, algal lime (*Lithothamnium calcareum*), magnesium carbonate, sodium chloride), 15 % brewer's yeast, linseed cake, carrot granules 2.5 % algae (*Spirulina platensis*) parsley fine cut.

Nutritional additives (per kg):

Taurin 20,000 mg. Iron (iron(II) fumarate) 1,280 mg

Zinc (amino acid zinc chelate) 990 mg,

Copper (amino acid copper chelate) 150 mg

Manganese (manganese(II) sulphate, monohydrate) 96 mg

Iodide (potassium iodide) 16.8 mg

Selenium (in an organic form of *S. cerevisiae*) 5.0 mg

Feed recommendation:

Dogs: Mix 1 slightly heaped teaspoon (approx. 5 g) per 10 kg of body weight each day into the feed. Growing dogs and cats and pregnant animals should receive double this amount.

Cats: Feed large cats up to ½ teaspoon daily, small animals correspondingly less.

Divide the recommended daily amount of BARF supplement between the number of daily food rations.

Due to the increased content of vitamins and trace elements, *tierlieb* BARF may only total max. 4 % of the daily feed ration.

Kräuterhaus Sanct Bernhard

Der Spezialist für Naturheilmittel und Kosmetik.
Seit **1903** im Dienste der Gesundheit.

In order to guarantee an optimum supply of essential amino acids, the tierlieb BARF Additive can be highly effectively combined with tierlieb BARF Feed Oil.

Keep dry and out of direct sunlight. Store below 25°C.
