Fine Rose Hip Powder

Feed for dogs and horses

Fine rose hip powder of the usual high quality, obtained from the rich shells and the oil-rich, seeds of the rose hip (*Rosa canina*) with the hair removed. Controlled cultivation and the gentle processing method means that the high level of nutrients is retained, offering dogs and horses a vitalising, natural supplement to their everyday feed. Due to the fine level of grinding, tierlieb rose hip powder is easier to digest and the valuable nutrients are optimally provided - a real superfood!

- For the love of nature and activeness
- For a natural, balanced diet
- Tested premium quality
- Suitable for biological raw feed appropriate to the species
- No additives

Composition:

100 % rose hip fruit, finely ground.

Analytical contents:

Crude protein 4.7 %, crude fibre 28.7 %, crude fat 1.0 %.
