Brewer's Yeast Pellets for Horses

Nutritional supplement

Brewer's yeast is popular for its diverse nutrients. As a natural and high-quality by-product of beer production, dried yeast contains a high proportion of digestible protein, B vitamins and trace elements. This nutrient mix helps to maintain stable hooves, supple, healthy skin and a beautiful coat.

Tasty tierlieb Brewer's Yeast Pellets can be fed as a treat or on an ongoing basis as a supplement. To balance the natural phosphorus content of brewer's yeast, tierlieb Brewer's Yeast Pellets contain calcium, which supports the formation of strong bones and teeth.

- Without spent grains (cereal-free)
- Supports natural digestion
- Rich in high-quality crude fibres made from grasses and herbs
- No additives

Analytical contents: Raw protein 26.4 %, crude fat 7.6 %, crude ash 8.3 %, crude fibre 11.1 %, sodium 0.1 %.
