

## tierlieb MSM-Joints Tablets

Supplementary feed for horses and dogs to support the musculoskeletal system.

### Worth knowing:

MSM (methylsulfonylmethane) is a natural component of food and an optimal source of sulphur. A healthy body needs sufficient sulphur, for example to form important amino acids for the musculoskeletal system. Articular cartilage, skin and hair as well as claws or hooves contain sulphur-containing compounds such as collagen and keratin and need sulphur to maintain their stability and flexibility. Tierlieb MSM Joint Tablets contain high-quality MSM and vitamin C, which supports the formation of collagen for normal cartilage and bone function.

- For the maintenance of resilient, stable joints, hooves and claws.
- Vitamin C supports collagen formation for normal bone and cartilage function.
- For a beautiful coat and elastic skin
- Conforms to the applicable doping guidelines in dog and horse sport

**Composition:** Methylsulfonylmethane (MSM), magnesium stearate.

**Analytic components:** Crude protein 0.1 %, crude fibre 14.1 %, crude fat 0.7 %, crude ash 0.7 %, sodium 0.1 %.

	Per tablet	Per kg
Methylsulfonylmethane	1,000 mg	833,000 mg
