

Hyaluronic Acid Capsules 500 mg

Nutritional supplement with hyaluronic acid and vitamin C

Useful information: Hyaluronic acid is a so-called glycosaminoglycan, a natural, biological macromolecule. It is mainly because of its ability to bind relatively large amounts of water (up to six litres of water per gram) that hyaluronic acid has become well known - and popular. It is therefore often used in cosmetic products, but also to supplement food. Vitamin C contributes towards normal production of collagen, and therefore the normal, healthy function of bones, cartilage and skin.

Each capsule contains 500 mg pure hyaluronic acid and 40 mg vitamin C.

Ingredients: Hyaluronic Acid (77%), Gelatine, Vitamin C, Stearate Magnesium (separating agent) Microcrystalline Cellulose (bulking agent).

	per capsule (= daily dose)	% of NRV recommended daily dose*	per 100 g capsules
Hyaluronic acid	500 mg	**	77 g
Vitamin C	40 mg	50	6 g

*NRV = Nutrient Reference Value for daily consumption according to Regulation (EU) No. 1169/2011

** no reference value available yet

Recommended use:

Swallow 1 capsule daily with plenty of liquid.

Store protected from light, dry and below 25°C. Nutritional supplements should not be used as a replacement for a balanced, varied diet, and do not replace a healthy lifestyle. Keep out of reach of young children. Do not exceed the recommended daily dose.

Made in Germany

90 capsules = 57 g
