

Erotisan Virility

Food supplement
For HIM - for stimulation and support

A combination of selected herbal substances, vitamins and trace elements that support the sexual functions of men and can help maintain a healthy, natural tone. The extracts from potency wood (*Muiru puama*), Damiana leaves and Sabal fruits and guarana have long been known for their stimulating and libido enhancing effect. Vitamin B6, zinc and selenium have been shown to have a positive impact on man's body functions. These help to have a healthy natural sexual life.

- Vitamin B6 contributes to the reduction of tiredness and fatigue
- Zinc contributes to the maintenance of normal testosterone level in blood
- Zinc contributes to normal fertility and reproduction
- Selenium contributes to a normal sperm production
