

Narcissus Night Serum

Grease-free, regenerating facial beauty care for fresh, delicate skin. Whilst you sleep, the Narcissus extract contained in this product develops its unique effect: it slows down the skin's metabolic process, which thus ages slower and can regenerate itself more easily. A care formula with herbal betaine and glycerine provides the skin with moisture and leaves it refreshed, velvety-soft and silky-smooth. Absorbs easily. To ensure an undisturbed sleep, we have waived the use of fragrances or essential oils.

Application: Lightly massage into skin after night-time cleansing. If required, another facial cream can be applied once the serum has been absorbed.

Ingredients: Aqua, Pentylene Glycol, Glycerine, Betaine, Chondrus Crispus Powder (Carrageenan), Narcissus Tazetta Bulb Extract, Glucose, Citric Acid.
