

Jojoba Oil Gold

100 % natural
cold pressed
from the first pressing

Naturally-pure, golden-yellow jojoba oil with its wonderful nurturing properties is extracted from the seeds of the olive-like fruits growing on the Simmondsia Chinensis, the jojoba bush. It is characterised by good spreading capabilities, and therefore is easy to smooth over the skin. After gentle rubbing and massaging, your skin will feel supple and silky-smooth. Because jojoba oil adapts well to the skin, you can achieve optimised skin protection and a favourable influence on the skin moisture. Examinations have shown that jojoba oil penetrates deep into the top layers of skin and thus remains effective for longer periods of time. Jojoba oil is particularly beneficial in case of skin problems due to its exceptional skin compatibility. It is absorbed quickly into the skin without leaving an irritating grease film behind it.

Application: Apply thinly and rub in gently.

Ingredients: Simmondsia Chinensis Seed Oil.

Contents 250 ml
