

tierlieb Multi-Mineral+D3

Mineral supplement for dogs, cats, birds and reptiles

Useful information:

Especially growing and aged as well as reproducing animals, sufficient mineralisation of bones and joints is significant for normal development and musculoskeletal function. Tierlieb Multi-Mineral+D3 provides readily available minerals, trace elements and vitamin D3, and prevents nutrition deficiencies. Vitamin D is essential for a healthy calcium and phosphorus balance. Reliably supports the development and retention of sturdy bones, joints, teeth and eggshells, and contributes towards the pigmentation of the skin, fur and feathers.

- Optimum utilisation through organically-bonded nutrients
- Prevents vitamin D deficiency
- Contains the amino acids DL-methionine and L-lysine
- Easy to dose, even for small animals
- Improves the calcium phosphorous ratio in feed

Analytical contents: Crude protein 4.7 %, crude fat 0.0 %, crude ash 66.8 %, crude fibre 0.7 %, calcium 20.1 %, phosphorous 8.0 %, sodium 1.0 %, magnesium 1.7 %. (Ratio of calcium to phosphorous 2.5:1)

Composition: Dicalcium phosphate, calcium carbonate, cornstarch, magnesium carbonate, sodium chloride.

Nutritional additives /kg: L-lysine HCL 40,000 mg, DL-methionine 20,000 mg, Vitamin D3 28,000 I.U. ., Iron (iron(II) fumarate) 1,600 mg, Zinc (protein hydrolysate-zinc chelate) 1,500mg, Copper (copper(II)-amino acid chelate hydrate) 225 mg, Manganese (manganese(II)-sulphate, monohydrate) 211 mg, Iodine (potassium iodide) 46 mg, Selenium (in organic form from *S. cerevisiae* CNCM I-3060) 9.2 mg.

Feed recommendation: As a general support, mix the recommended dose into feed twice per week. During reproduction and breeding, and in case of calcium deficiency, tierlieb Multi-Mineral+D3 can temporarily be administered 3-4 times.

Dogs: 1 slightly-heaped teaspoon (tsp) per 10 kg of body weight (1 tsp accords with approx. 3 g)

Cats (4-10 kg): ½ tsp

Doves and poultry (0.5-1 kg): ½ -1 tsp

Exotic birds and reptiles (≤ 0.5 kg): up to ½ tsp

The recommended daily dose must not be increased due to the high vitamin D3 and trace element content.

Keep dry and out of direct sunlight. Store below 25°C.
