

Vitalising Facial Fluid for men

Vitalising, sporty-light reviving facial care especially for men. Moisturises and smoothes the skin, reducing fine lines.

Men's skin is different from women's skin. Signs of aging may appear in men somewhat later, but when they appear, they develop much more quickly. In order to slow down this process, we have developed this facial fluid. A special care formula with caffeine, zinc, menthol, betaine, allantoin, hyaluronic acid, jojoba oil and malachite provides elasticity, freshness and vitality. SPECI´MEN™, a natural anti-aging ingredient from the African baobab "tree of life" is rich in antioxidants, inhibits skin-damaging influences and strengthens the connections between the elastin and hyaluron fibres. A vitalising, fresh fragrance makes application a daily pleasure.

Application: Apply mornings and evenings to the skin and gently massage in.
