

Eskimo Intensive Care Cream

Eskimo Intensive Care Cream has been developed for extremely dry, flaky skin. A high vitamin E content of 10 % combined with urea and panthenol soothes irritated skin and reduces any feeling of tension. The skin's moisture levels are regulated and your physiological defences are strengthened. Eskimo Intensive Care Cream gently soothes the skin and keeps it supple.

Free from added fragrances, colours and preservatives

Ingredients: Aqua, Tocopheryl Acetate, Cetearyl Alcohol, Urea, Pentylene Glycol, Panthenol, Propylene Glycol, Glycerin, Stearic Acid, Palmitic Acid, Glycine Soja Oil, Sodium Cetearyl Sulfate.
