

Lemon Hand Cream

For velvety-soft, well cared-for hands.

This pleasant, light hand cream makes hands smooth and velvety soft. The wonderfully fresh, lemony fragrance is completely natural: it is solely derived from the lemon and lime oils used. A beneficial care complex with collagen, jojoba, olive and carrot oil provides dry hands with moisture over a long period of time and makes them look more youthful and healthy. Soothing allantoin helps to care for fatigued and stressed skin.
